

There are **three main public areas** and **two administrative areas**

- **The Public Square** is mixed-use space to see what's new and mingle with each other people.
- **The Bazaar** is a market area for conducting specialized business transactions.
- **The Welcome Center** helps visitors orient themselves with maps and cultural guides.
- **Expedition HQ** is where registered colonists are facilitated in finding others to form limited contract projects
- **Collective HQ** is the governing body of The Colony, largely for record keeping and ensuring that information is communicated efficiently across all operational areas

The Public Square

- shops, stands
- meeting spaces
